CUSTOM METAL BUILDING SYSTEMS

HARDWALL

a **NUCOR** company

As a leader in innovation, Nucor Building Systems works continuously to develop products that are some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their needs then develop new solutions or improve existing ones that provide them with high-performance, competitive products. From our proprietary design products, such as TrussFrame, to our insulated metal panels with cool coating technology, our products allow our customers to increase efficiency and qualify for LEED® points.

As an industry leader, our strength, capacity and resources offer unprecedented value to our customers. Our integrated infrastructure allows us direct access to an uninterrupted supply of steel and the ability to provide our customers with single source solutions for a wide range of products.

HARDWALL

With over 30 years of experience, Nucor Building Systems understands the special needs and requirements of pre-engineered metal buildings, and has the ability to work with architects and engineers to combine metal buildings with a hardwall system. Your building can be supported by a concrete wall without the aid of steel perimeter columns. Interior columns can be held to an absolute minimum depending on your budget and design, increasing usable space and reducing total project cost. Whether it's brick, masonry, EIFS, concrete, or tilt up, pre-engineered buildings can utilize hardwall options for pleasing aesthetics. In addition, Insulated Metal Panels can be used with hardwall or as an alternative to give a similar aesthetic on the exterior.

Powerful Relationships. Powerful Results.

Nucor Building Systems is a division of Nucor Corporation, North America's most diversified steel and steel products company. Their integrated infrastructure allows us direct access to an uninterrupted supply of steel. As a result, we have the ability to provide our customers with single source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

Nationwide Authorized Builder Network

With a coast-to-coast Authorized Builder network, there is likely an experienced Nucor Builder in your local area to partner with on your custom metal building solution. We can also help government and municipalities with facility project needs through our Sourcewell pre-engineered buildings contract. Learn more about how Sourcewell can satisfy your competitive bid requirements and simplify the extensive bid process by visiting www.nucorbuildingsystems.com/sourcewell.

Insulated Metal Panels

One of the most sophisticated building products on the market today, insulated metal panels can be incorporated into a hardwall design. Insulated metal panels offer a clean, consistent and high-quality appearance that immediately adds value to any building. Insulated panels enhance the visual appearance of your buildings, and their remarkable light weight reduces structural requirements and installation costs.

Innovative, Cutting Edge Technology

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their building needs. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

Superior Product Systems

Nucor Building Systems has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

a **NUCOR**® company

Nucor Building Systems has been a leader in the design and manufacture of custom-engineered metal building systems for over three decades. With four locations and a network of over 1,200 Authorized Builders serving all of North America, our focus is on customer service, price, and quality. We are also dedicated to providing sophisticated building solutions for our customers that are energy efficient and environmentally friendly.
